

Dear Hiring Team at Deloitte,

I am writing to express my interest in the T&T Consultant – Innovation Cloud Deployment Center (System Analyst) position at Deloitte. As an Computer Science graduate with a GPA 3.79/4.00, I possess a strong analytical foundation and hands-on experience in bridging the gap between complex business requirements and scalable technical solutions.

During my tenure as a UI/UX Designer Intern at Parahyangan Catholic University, I didn't just design interface, I analyzed departmental workflow to digitalize university processes. This experience sharpened my ability to translate stakeholder needs into functional technical blueprints-a core responsibility of a System Analyst.

My technical proficiency in Fullstack Development such as Laravel, React, and FastAPI, and my certification from Bangkit Academy (Google Cloud Platform) provide me with a unique advantage. I understand how systems are built from the ground up, allowing me to conduct thorough system modeling, database schema design, and cloud infrastructure analysis with precision.

Deloitte commitment to innovative enterprise solutions align perfectly with my passion for optimizing digital ecosystems. I am confident that my blend of analytical thinking, technical background, and problem-solving mindset will allow me to contribute effectively to your System Analyst.

Thank you for your time and consideration. I look forward to the possibility of discussing how my skill can support Deloitte continues success.

Best regards,
Azizan Artiandi Akbar Fauzi
